Mode of Exam

The exam is an individual external exam (30 min) which will take place as a synopsis exam.

A synopsis is a written presentation of a limited problem or fields of study.

The general requirements for the synopsis are:

- The synopsis should contain theoretical and practical parts.
- The synopsis consists of at most 10 pages (front page, table of content and any appendices not included).

The synopsis can be made and - handed in - on your own, or as a small group.

The exam starts with the student's presentation of the synopsis topic for around 10 minutes, and after that there will be a discussion for around 15 minutes about your synopsis and some key concepts from the course curriculum.

If your synopsis topic is wide, the discussion will focus more on your synopsis and less on the key concepts not covered by your synopsis. If your synopsis topic is narrow, there will be more focus on the key concepts not covered by your synopsis.

You are expected to have a deep knowledge about your synopsis topic(s), and an overall knowledge about the key topics from the course curriculum, which are not covered by your synopsis.

The exam will be evaluated using the 7-point scale.

A re-exam will automatically be scheduled for students who fail the first exam attempt.

Note:

The synopsis is regarded as a working paper in relation to the exam, that is, it will not have any effect on the evaluation. Only the oral examination will form the basis for the evaluation and the grading.

Examination Schedule

Please show up well before the exam starts and not later than 30 minutes before your scheduled time.

Monday 15 June 2026, room C1

Start	Name
09:00	Nilofar Yosufzai
09:30	Jean Christian Elbro Jensen
10:00	Marco Gabel
10:30	Attila Bako
11:00	Viktor Bonev
Lunch	
12:00	Andrii S.
12:30	Tymon Maksymilian Mikula
13:00	Alekss Noviconoks
13:30	Brandon Gibbs
14:00	Rune Krogh
14:30	Tobias Schultz Poulsen

Tuesday 16 June 2026, room C1

Start	Name
09:00	Thomas Olesen
09:30	Martin Alexander Houmark
10:00	Ana-Iulia Opris
10:30	Meile Kapisaita
11:00	Oliver J.
Lunch	
12:00	Amir Bakhshizad
12:30	Mario Aaron Florez Debia
13:00	Lukas Holm
13:30	Naylin O.H.
14:00	Grosu Ionut-Andrei
14:30	Matej Grubisic

Wednesday 17 June 2026, room C1

Start	Name
09:00	Nelson André Santos Veríssimo
09:30	Jesper Antonisen Nielsen
10:00	Radwan E.C.
10:30	Barnabás Tamás
11:00	Yordan Radostinov Ruse
Lunch	
12:00	
12:30	

Absence due to sickness

If you are sick at the day of the exam and therefore are unable to take an examination, you must inform the academy at once on telephone **76 13 32 00**.

By sickness, you must send a medical statement within 48 hours after the day of exam, and you will be admitted a new exam later.
